

We won't beat around the bush - the bar industry is not the most environmentally conscious. Our 26 tap system is a thoughtful means of addressing this typically wasteful issue & putting a conscious spin on it. By offering an array of beverages on draft, we are able to cut back on everything from packaging, to shipping to disposal. Partnering with HC3 allows us to further our mission by composting every possible material we use. Simply put - you can feel good about drinking here.
